

HUMANE CARE FOR STREET DOGS

Vaccinate • Spay/Neuter • Adopt • Support Shelters

Healthy communities protect both people and dogs. Mass vaccination ($\geq 70\%$), sterilization, and adoption are proven, compassionate solutions.

How to help:

- Join or sponsor a local anti-rabies vaccination drive.
- Organize humane spay/neuter (ABC) in your neighborhood.
- Adopt or foster instead of buying pets.
- Support NGOs with supplies, funds, and volunteering.
